Home Usage

R35-1

Functions

(1) CNC precise super thin frame, saphire glass surface.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Black	

4.5 INCH HD SCREEN
1MILLION PIXEL CAMERA
SAPPHIRE GLASS

R35-3

Functions

(1) Radar sensor approaches, automatically activates facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Black	

ANODIZED COATING
4.5 INCH HD SCREEN

R35-2

Functions

(1) Radar sensor approaches locks, automatically activate 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Black	

ANODIZED COATING
4.5 INCH HD SCREEN

B92

Functions

(1) Radar sensor approaches locks, automatically activate 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum/IDM Plate	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Black	

3.5 INCH HD SCREEN

R28S

Functions

(1) PIR infared induction automatically activates 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Bronze/Grey	

R8S

Functions

(1) PIR infared induction automatically activate 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Zinc Alloy	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Bronze/Black/Grey	

R20D

Functions

(1) Radar sensor approaches locks, automatically activates 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Grey/Gun color	

V20

Functions

(1) One Hand open.
(2) Square shape fingerprint.
(3) Stainless steel clutch.
(4) Hidden cylinder.

Unlock Mode: Fingerprint/Password/keys/Card/APP	
Material： Aluminum	
Voice: Multi-languages, Low Batt. reminder, Doorbell	
Color: Black	

Available Colors:
Obsidian Black

MODEL

P1
Fully - Automatic

3D face recognition peephole video smart lock
Active video intercom and one-click unlocking via remote mobile phone.

FUNCTION INTRODUCTION

- 3D face recognition, financial-grade security protection.

- Radar induction - Automatically activate 3D face recognition when approaching the door lock.

- Precise recognition (capable of recognition under backlight and even in complete darkness with financial payment level).

- Wide-angle camera, 24-hour all-round monitoring, remote video intercom.

- When the doorbell is pressed, the situation outside the door can be clearly seen on the remote mobile phone or the indoor large screen.

- Automatically lock when the door is closed, low battery reminder, protection against electromagnetic pulse devices, one-click to open/close the door, automatic self-locking knob, quick-opening handle.

- 4.0 inch indoor HD display screen.

- Unlock the lock with a password. Anti-peeping function is available when entering random codes.

- Mechanical key for emergency unlocking.Query of unlocking records.

UNLOCKING METHODS

| 3D Face Recognition | Fingerprint Unlocking | Magnetic Card Unlocking | One-time Temporary Password | APP Unlocking | Key Unlocking | Password Unlocking | Combined Password |

Working environment	Working temperature:-25℃~ 60℃ / Relative humidity:20%~95%RH / FRR:≤0.01% / FAR:≤0.0001%
Materials	Aluminum alloy
Voice reminders	Real-person voice navigation, low battery reminder, doorbell status reminder.
Capacity	50 faces, 50 fingerprints, 100 magnetic cards, 100 sets of passwords can be stored.

10

L30T

Functions
(1) TUYA embedding handle.
(2) Aluminum frame.

Unlock Mode: Fingerprint/Password/keys/Card/APP
Material: **Aluminum**
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black/White

R33D

Functions
(1) Radar sensor approaches locks, automatically activates 3D facial recognition.
(2) Built-in visual camera high-difinition large screen.
(3)Accrate identification of E-pay grade backlight.
(4) Anti-pry alarm, try error alarm, low battery alarm, electronic fortification alarm.
(5) Outdoor strong light recognition.

Unlock Mode: Fingerprint/Face/Password/keys/Card/APP
Material: **Aluminum**
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black/Grey

MODEL

P15
Fully - Automatic

3D face recognition touch control dual screen smart lock
Active human body induction,Wide-angle camera,Ultra-thin body

FUNCTION INTRODUCTION

- Dual display screens, front touch screen like mobile phone.

- Ultra-thin body, light and convenient.

- 3D face recognition, financial-grade security protection.

- Radar induction - Automatically activate 3D face recognition when approaching the door lock.

- Precise recognition (capable of recognition under backlight and even in complete darkness with financial payment level).

- Wide-angle camera, 24-hour all-round monitoring, remote video intercom.

- When the doorbell is pressed, the situation outside the door can be clearly seen on the remote mobile phone or the indoor large screen.

- Automatically lock when the door is closed, low battery reminder, protection against electromagnetic pulse devices, one-click to open/close the door, automatic self-locking knob, quick-opening handle.

- 4.5 inch indoor HD display screen.

- Unlock the lock with a password. Anti-peeping function is available when entering random codes.

- Mechanical key for emergency unlocking.Query of unlocking records.

UNLOCKING METHODS

| 3D Face Recognition | Fingerprint Unlocking | Magnetic Card Unlocking | One-time Temporary Password | APP Unlocking | Key Unlocking | Password Unlocking | Combined Password |

Working environment	Working temperature:-25℃~ 60℃ / Relative humidity:20%~95%RH / FRR:≤0.01% / FAR:≤0.0001%
Materials	Integrally die-cast formed with aluminum alloy in one piece.
Voice reminders	Real-person voice navigation, low battery reminder, doorbell status reminder.
Capacity	50 faces, 50 fingerprints, 100 magnetic cards, 100 sets of passwords can be stored.

Available Colors:
Obsidian Black

MODEL

P5
Fully - Automatic

3D face recognition real-time monitoring smart lock
Wide-angle camera, remote mobile phone video intercom

FUNCTION INTRODUCTION

- 3D face recognition, financial-grade security protection.

- Radar induction - Automatically activate 3D face recognition when approaching the door lock.

- Precise recognition (capable of recognition under backlight and even in complete darkness with financial payment level).

- Wide-angle camera, 24-hour all-round monitoring, remote video intercom.

- When the doorbell is pressed, the situation outside the door can be clearly seen on the remote mobile phone or the indoor large screen.

- 4.5 inch indoor HD display screen.

- Unlock the lock with a password. Anti-peeping function is available when entering random codes.

- Mechanical key for emergency unlocking.Query of unlocking records.

UNLOCKING METHODS

| 3D Face Recognition | Fingerprint Unlocking | Magnetic Card Unlocking | One-time Temporary Password | APP Unlocking | Key Unlocking | Password Unlocking | Combined Password |

Working environment	Working temperature:-25℃~ 60℃ / Relative humidity:20%~95%RH / FRR:≤0.01% / FAR:≤0.0001%
Materials	Integrally die-cast formed with aluminum alloy / High-end electroplating.
Voice reminders	Real-person voice navigation, low battery reminder, doorbell status reminder.
Capacity	50 faces, 50 fingerprints, 100 magnetic cards, 100 sets of passwords can be stored.

V15

Functions

(1) One hand open.
(2) IMD in film injection molding process.
(3) Hidden cylinder.

Unlock Mode: Fingerprint/Password/keys/Card/APP
Material: Aluminum Alloy
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black

V3

Functions

(1) Gravity slide cover.
(2) Camera on/off.
(3) Zinc alloy frame.

Unlock Mode: Fingerprint/Password/keys/Card/APP
Material: Zinc Alloy
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black/Bronze

V16

Functions

(1) Appartment lock.
(2) Square shape fingerprint.
(3) One hand open.
(4) Curve surface.

Unlock Mode: Fingerprint/Password/keys/Card/APP
Material: Aluminum Alloy
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black

S13

Functions

(1) Indoor lock.
(2) Open mode silent.

Unlock Mode: Fingerprint/Password/keys/Card/APP
Material: Aluminum
Voice: Multi-languages, Low Batt. reminder, Doorbell
Color: Black/Bronze

8 LANGUAGE
VOICE GUIDES

Available Colors:
Obsidian Black

MODEL
K2s Semi - Automatic

Semiconductor fingerprint recognition smart lock
Open with just one grip, and prevent opening by electromagnetic pulse devices.

FUNCTION INTRODUCTION

- Unlock the lock with a temporary password remotely via mobile phone.
- Unlock the lock with a password. Anti-peeping function is available when entering random codes.
- Mechanical key for emergency unlocking.Query of unlocking records.

Unlocking methods	fingerprint, password, magnetic card, key, one-time temporary password.
Materials	Integrally die-cast formed with aluminum alloy / high-end baking finish.
Voice reminders	Real-person voice navigation, low battery reminder, doorbell status reminder.
Capacity	50 fingerprints, 100 magnetic cards, 100 sets of passwords can be stored.

Available Colors:
Obsidian Black   Bright Gold

MODEL
B1 Fully - Automatic

HD peephole video intercom smart lock
Wide-angle camera, indoor HD large screen, one-touch unlocking.

FUNCTION INTRODUCTION

- Wide-angle camera, 24-hour all-round monitoring, remote video intercom.
- When the doorbell is pressed, the situation outside the door can be clearly seen on the remote mobile phone or the indoor large screen.
- Automatically lock when the door is closed, low battery reminder, protection against electromagnetic pulse devices, one-click to open/close the door, automatic self-locking knob, quick-opening handle.
- Semiconductor fingerprint recognition

Available Colors:

ABOUT US

Professional ----

Strong engineering team and strict training makes SMARTLOCKIST always be professional.

Unique ----

Different from most of other smart locks factories, SMARTLOCKIST focus on full range of supply chain and services.

Leading ----

Benefit from the fast evolution of industry, SMARTLOCKIST has become one of the leaders in full range of industry chain.

Young ----

SMARTLOCKIST never stops makeing progress, full of vitality in past 5 years more than 50 designs launched.
